PSL121-Q1

TCM Lite Range, streamlined for greater efficiencies and a more sustainable world, without compromising design and engineering excellence.

Easy to use, simple to maintain. NO FUSS, NO WASTE. **TCM PSL12I-Q1** with a **robust**, stable frame and body, is compact and small with exceptional manoeuvrability in narrow and tight spaces. A **low maintenance** AC drive motor makes light work of double pallet handling, with **intial lift** increasing ground clearance for ramps, dock levellers and bridges. The high capacity, high power 24V **Li-ION battery** is long-lasting reducing down time, with swift 'plug and go' charging and **integrated charger** for charging anywhere. A spring-loaded steering tiller with **ergonomic tiller head** for strain-free operation enhances operator comfort. The electromagnetic braking systems, **duplex mast** for excellent visibility at different heights up to 3.3 m, creep speed function and battery status indicator, all ensure the operator stays confidently in control.
